Is Your Child 'Week 3' Ready?

It is really exciting to be welcoming students back on site one day per week from Monday, 11 May (still working from home 4 days per week).

Remember, your child's day is:

Bradman - Monday

Elliott - Tuesday

Fraser - Thursday

Goolagong - Friday

(Our **Support Unit** students are on a different schedule – please contact their teacher.)

Year 12 doing practical subjects can come in on **Wednesdays** to work on their performances/projects, and can book appointments with their teachers to come in for learning on other days.

Where possible, please only send your child to school on their scheduled day (unless of course you are an essential worker or there are special circumstances). This will allow us to manage a gradual and safe return for all students and staff.

We have created an enjoyable program for the one day per week return, with a focus on wellbeing and re-engagement with onsite learning.

Years 7-10 Day

- ✓ Literacy
- ✓ Numeracy
- ✓ Creative
- ✓ Wellbeing
- ✓ Physical activity

Years 11 & 12

Years 11 & 12 will continue with their normal timetabled subjects.

Remember – students are to:

- Wear sports uniform until further notice.
- Bring their own drink bottle (bubblers are off, for hygiene reasons)
- Bring their own hand sanitiser, if they have it (we have student supplies, but it's nice to have your own for whenever you might need it)
- Maintain 1.5 metre social distancing (to keep everyone safe)
- > Follow normal school rules and behaviour.

* Important:

In these heightened times when people are feeling worried about their health and safety, we will not accept any student behaviour that risks staff or student safety or wellbeing.

Still very worried about sending your child to school?

Please be reassured that we have put in place many strategies to keep students safe, including:

- > enhanced cleaning
- liquid soap in all toilets
- hand sanitiser in all blocks; and
- social distancing rules.

If, however, you are still fearful, please contact us and we will discuss your child's continued learning from home.
