

From Your Year Advisers

Semester 1 has been a busy time for Year 7 with many fantastic opportunities and experiences. In the wellbeing space many students have strived to push themselves, whether it be attending camp, trying rock climbing or engaging in the Horse Assisted Learning Program. We are also proud of all of the students who have participated in each of the sporting carnivals with a vast number of Year 7 students qualifying for zone.

Our school Learning Centre now displays the beautiful work created by Year 7 students in the 4See Program, where students explored their character strengths and decorated their very own planter pot. It was exciting to see students presenting their work at the celebration of learning with confidence and pride.

As we move into Semester 2, students will receive their very first report for High School. I have had the pleasure of reading so many comments about students trying their best in class. We also look forward to Student Learning Conferences where students will have the opportunity to reflect on their learning and progress so far this year. Students will prepare learning goals for their conferences to be held during Weeks 2, 3 and 4 of Term 3 for mainstream students and Weeks 5 and 6 for Support students.

Ms R Knowles and Mr D Aquilina

From Your Deputy

Welcome to Term 3 and Semester 2. This term you will rotate to a new CAPA (Creative and Performing Arts) subject and move to a new Technology Unit. You will receive your Semester 1 Report which is an important document that provides important data and key feedback on your learning and behaviour. Use the meaningful feedback from your teachers to set some goals for learning success. These will be discussed with your parent and a member of staff at your Student Learning Conference which is occurring in the first half of Term 3. This allows all relevant stakeholders in your learning (parents and teachers) to be aware of your goals and help you keep on track into achieving them.

Ms S Arts
