Deputy Principal: Ms S Arts, M.Ed., B.Sci., Dip.Ed.
Deputy Principal: Ms E Fitzgerald, B. Health Science, Dip.Ed.

Moving to online learning: Students who are staying home

Important information for parents:

The vast majority of students are currently staying home due to the COVID 19 pandemic. It is important we work together to support ongoing learning for all students who are not currently on-site. The following provides parents with information, guidelines and suggestions to support your child's learning at home:

- It is recommended that you create a suitable and consistent learning environment for your child. We suggest this is in an open family space where you can support and observe their learning.
- All subjects, and all classes within those subjects, have their own 'Google Classroom'. Teachers are preparing lessons and resources, and placing them in the Google Classroom for students to access and complete.
- Please encourage and support your child to follow their normal timetable while learning from home. This means logging on and 'entering' the relevant Google Classroom during the timetabled lesson. Teachers will be online and available during these times to answer questions, provide feedback and clarify any student enquires.
- Teachers will be checking which students are 'present' in the Google Classroom and completing the relevant work. This will allow teachers to track student engagement and learning.
- Teachers will be contacting, via email and phone, the parents of students who are consistently 'missing class'.
- Parents whose children are accessing their work via hard copy packages rather than online are encouraged to return completed work and collect further packages as required.
- Parents are encouraged to maintain ongoing contact with school throughout these unique times. Email is the preferred form of contact; all contact emails are here:
