What's involved in SMC?

Take the opportunity to try out uni life and gain valuable study skills before you get stuck into the HSC.

WHAT IS THE YEAR 12 SUMMER MASTER CLASS (SMC)?

- Complete a university subject in three-weeks over the Summer school holidays in January 2021.
- You'll complete a university subject of your choice (from the selection offered) that aligns with your interests and potential future degree
- You'll get to know the UOW campus, student mentors and staff to really get a sense of what it's like to be a uni student
- Subjects are offered in a blended environment, which means you can study online and at the Wollongong UOW campus.

WHAT'S IN IT FOR YOU?

- Maximise your HSC results - each subject refers to and extends upon the 2021 HSC syllabus. Extend your knowledge and perspective in one subject while learning new assessment techniques for your HSC!
- Experience university life while you're still at high school! Your completion of a university-level subject will give you confidence (and a head start) when you begin your higher education journey. A guaranteed Early Admission engagement activity at UOW (on completion of the SMC program).
- Credit towards a UOW degree that could make you eligible to skip a whole subject when you study here.
- A chance to secure a scholarship in your first year at UOW.

COSTS

- Program fees are \$460, payable upon gaining an offer of a place in the program.
- Limited fully sponsored places and equity grants (for additional costs associated with undertaking the program) are available to students who meet equity criteria or attend an In2Uni sponsored school.
- You will be able to apply for a sponsored place or grant, in your application form.

SUBJECTS (MORE INFO ON WEB)

- Responsible Business Decision Making (BUS002)
- Preparing for HSC English (ASSH005)
- Controversies in Contested Histories (ASSH002)
- Introduction to Visual Arts (ASSH005)
- Introduction to University Science (SMAH001)
- Determinants, Priorities and Health Promotion in Action (HAS001)
- IntoHealth: Health for Now, Health for the Future (SMAH002)
- Sustainable Futures through Maths, Physics and Engineering (STEM001)
- An Introduction to Solution Focussed Computer Programming (STEM002)

INFORMATION SESSIONS (ONLINE)

Keen to know more about the program? We'll be running online information sessions for interested students and parents on 20 and 26 October 2020.

Register your interest and we'll send you the details about how to join in.

uow.info/smc-info

LOCATION

Due to COVID-19, the 2021 SMC will be a blended delivery model. This means that some course content will be delivered online (such as lectures) and some course content (such as mentor led sessions) will be held at the Wollongong campus. We will continue to monitor advice from the NSW Governments to ensure the safety of our students and staff throughout the program.

APPLY

Visit our website before the 8 November 2020 closing date and complete the online application form.
