

# Rev Up READING at home

Show them how it's done! - A love of reading is a great way to show kids the importance of reading. Grab yourself a magazine and block out some time in your day.

Have things to read in high traffic areas such as bench tops or coffee tables – Curious kids can't help but have a read.

Think outside the book – It doesn't have to be a book; catalogues, magazines, newspapers and comics provide great reading too.

Practice makes perfect - Just like driving lessons kids rely on us to show them how to read. Read things aloud (even when you don't need to!) such as recipes, text messages, junk mail and letters.

## Helpful Hints!

**Don't have a confident reader? Try following along with an audio book**

**Don't have access to that book you love? Put a request in with our Teacher Librarian and we will order it in for you to borrow.**

**Don't know what your child should be reading? Check suggested text lists or current young adult lists:**
