

## ABOUT US

Ambarvale High School is an award winning co-educational comprehensive school which caters for students of all ability levels. Established in 1984, the school provides a caring environment in which students' horizons are broadened through the attainment of the knowledge, skills and values needed to successfully prepare for the future.

## YEAR 7 IN FOCUS

Ambarvale High School has been recognized as having an exemplary Year 6 into Year 7 transition program. Year 7 students are individually supported as they make the transition from primary to secondary school. Our three day **Orientation Camp** at the start of the school year is a wonderful opportunity for all new students to develop strong positive relationships with peers and teachers. Students who are identified as high achieving through the Australian Council for Educational Research (ACER) assessment, or are recommended by primary school teachers, have the opportunity to join our **Selective Class** in Years 7 and 8. We also offer a number of **scholarships** to students starting their secondary education up to the value of \$300.

Ambarvale High School offers cutting edge innovative 21st Century learning which has been recognized with the school receiving the NSW Secretary's Award for Outstanding School Initiative for our innovative projects. Our amazing 'Projects' include "GLU" (Global Learning United) in Year 7, STEM in Year 8, Project Based Learning (PBL) & Self Organised Learning Environments (SOLE), EPIC in Year 9 and PBL 'Profectus' in our support unit.

Our aim is to provide a happy, safe, enjoyable and individualized learning experience for all students here at Ambarvale High School.
