Dear Sir/Madam,

At the Ingham Institute, we are motivated to making a positive difference to the future of young people. We hope that by creating a meaningful and lasting partnership with high schools across South West Sydney, we can broaden the awareness of careers in Science, Technology, Engineering and Mathematics (STEM) to help students make informed decisions towards their future.

The Ingham Institute would like to invite your students in Years 9 - 12 to participate in a **Science Poster Competition**.

All entries will be displayed at the **2019 Health Beyond Research & Innovation Showcase**, on Thursday 6 June, 2019 at The William Inglis Hotel, Warwick Farm.

Students will hear from health leaders, learn about the latest medical technologies, and speak with medical students/researchers and visit stalls by the University of New South Wales and Western Sydney University.

Science Poster Competition

Poster Criteria:

1. Background
2. Aims
3. Materials/Methods
4. Results
5. Conclusion

Submissions Due: Friday 3 May, 2019

Enquiries: Grace Micali – events@inghaminstitute.org.au

We encourage students to be creative as possible when choosing a topic. Students have the choice to design a science project or re-create a project in a poster layout from their curriculum. Posters can be submitted either in hard copy format or electronic in A2 size.

Posters will be judged by a panel of researchers ranging from medical students to clinical and academic professionals. The top five overall winners will have the amazing opportunity to present their poster in front of lead scientists and medical researchers during the Schools Program at the 2019 Health Beyond Research & Innovation Showcase, as well as receive a gift voucher from the Co-op Bookshop.

This is an exciting opportunity for local High School students to take part in and get involved with the ongoing development of health, research and innovation in South Western Sydney. We hope that you can include the Science Poster Competition into your 2019 curriculum.

Kind Regards,

A handwritten signature in cursive script that reads "Grace Micali".
